Space planning made easy!

Create 3D floor plans in minutes

Planning of the body shop is done in very user-friendly 3D. Create a 3D drawing in an instant for presentation to your customer.

Configuration and customization

Advanced product configurators, over 2000, allow for exact product specifications in order to create your perfect body repair shop.

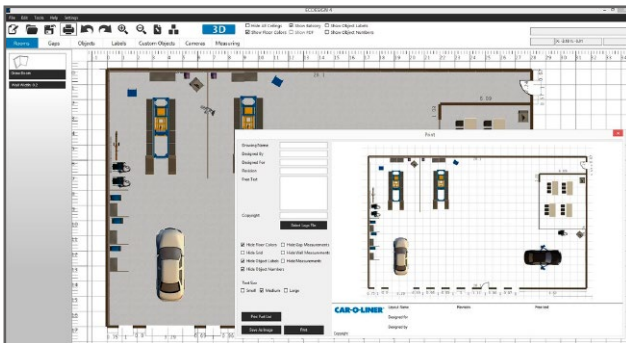

Beautiful photo realistic images

Save beautiful, photo realistic images from any angle of the floor plan at the click of a button and easily print or email them to your customers. Even create 360° photos can be viewed on almost any device or with VR headsets.

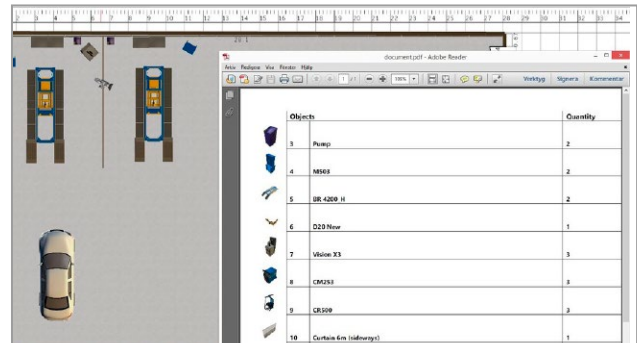

360° walk-through videos and image samples

At any moment instantly visualize and analyze the results in a real-time 3D scene. Stunning 360° videos can be viewed with VR headsets such as GEAR VR and Google Cardboard. Quickly discover any bottlenecks which need correcting prior to construction.

Instant presentations

Ecdesign can automatically build you a custom floor plan presentation including 2D drawing, 3D images and specification documents can be saved and printed at the click of a button.

Instant quotations

Based on the products used in a scene, quotations can be automatically created. This feature will minimize the sales process time and increase the amount of quotations created.
